1. What do you like *best* about this course?

The hands on experience with teacher evaluating and correcting as you go. Good equipment - good textbook. The handouts were excellent as well - very step by step. The photos used in class were also excellent for training purposes.
Teacher was excellent

2. What do you like *least* about the course?

It's too short - could use 3-4 more classes. How about a 10-week class?

3. If you were the instructor, what would you do to improve the course?

Make it longer - 10 weeks.

4. Please share other comments about your experience:

1. What do you like *best* about this course?

Having time in class to work on exercises.

2. What do you like *least* about the course?

I think that there was too much information to learn in a 6 week course. Ideally, if we could meet 2x per week for 6 or 8 weeks even, I think that we would ~~benefit~~ benefit greatly. Having a whole week in between it's easy to forget what we learned the week before. Though I know we are expected to work on our own at home, since these computers (and/or programs) are different, it makes it a little harder.

3. If you were the instructor, what would you do to improve the course?

Give more hands on instruction during class.

4. Please share other comments about your experience:

Excellent instructor ... has a wealth of knowledge to share ... Though it seemed like the pace picked up quickly + it was hard to "grasp" some of the basics.
